

## STRIPS

### “type I-80/I-130/I-180”

OPEN JOINT CEILINGS

- Easy to assemble
- Full range of colours
- Customer choice
- Fast disassembly

The suspended ceiling in strips “SERIE I”, fast to lay down and easy to control, allows designer to personalize interiors by choosing among different modules and a full range of colours.

Strips “SERIE I”, with square angle, are made of prepainted aluminium and used in modular suspended ceilings with open shutter. Each modular element can be unhooked from its carrier and allows full accessibility for upper service maintenance.

The shutter can be also closed with contrast colour effect by using the closing tile PIC 25 with overlap on the carrier.
