

medi U-RASTER®

ALUMINIUM OPEN CELL

U-PROFILE mm 15

- Main structure integrated in the ceiling
- Reduced volume of transport
- Full range of colours
- Various cell sizes
- Highest aesthetic solution

The U-profiles, orthogonally fitted, form modular panels complete with L perimetral profile for the support and the integration in the modular structure constituted by T profiles of 15 mm base. This system allows the use of different typology of panels but with the same module. Medi U-RASTER® can be supplied in a large range of standard cells end, on request, produced in various cell dimensions.
