OPEN JOINT CEILINGS

- Full range of colors
- Customer choice.
- Fast disassembly

The suspended ceiling in strips “SERIE 0”, fast to lay down and easy to control, allows designer to personalize interiors by choosing among different modules and a full range of colours.

Strips “SERIE 0”, with rounded edges, are made of prepainted aluminium and used in modular suspended ceilings with open shutter. Each modular element can be unhooked from its carrier and allows full accessibility for service maintenance. The shutter can be also closed with contrast colour effect by using two different closing tiles: PIC 15 with overlap between the strips, or PIC 25 with overlap on the carrier.
